REASONS FOR ALLOWANCE

Claims 1-3 and 6-12 are allowed. Claims 4, 5 and 13-15 have been cancelled. The following is an Examiner's statement of reasons for allowance:

Independent claim 1 of the present application teaches a method for cross interleave Reed-Solomon code correction comprising the steps of: inputting a first C1 codeword into a C1 decoder means from a first memory means; outputting a second C1 codeword into a second memory means from the C1 decoder means; deinterleaving the second C1 codeword to produce a first C2 codeword in the second memory means; inputting the first C2 codeword into a C2 decoder means from the second memory means; outputting a second C2 codeword into the second memory means from the second memory means from the C2 decoder means, wherein the second C2 codeword is the corrected first C2 codeword in case the first C2 codeword is correctable, and the second C2 codeword being a copy of the first C2 codeword in case the first C2 codeword is not correctable. The foregoing limitations are not found in the prior arts of record. Particularly, none of the prior arts of record teach nor fairly suggest, "...inputting the first C2 codeword into a C2 decoder means from the second memory means; outputting a second C2 codeword into the second memory means from the second memory means from the C2 decoder means, wherein the second C2 codeword is the corrected first C2 codeword in case the first C2 codeword is correctable, and the second C2 codeword being a copy of the first C2 codeword in case the first C2 codeword is not correctable."

Dependent claims 2, 3 and 6-12 depend from allowable independent claim 1 and inherently include limitations therein and therefore are allowed as well.
